Re: Revised Application for Northern Health Travel Grant form and new Post Audit Review Process

One of the initiatives implemented by the Ministry of Health and Long-Term Care to modernize and streamline service delivery for Ontarians was the redesign of the Northern Health Travel Grant (NHTG) processing system. Two key elements of the initiative are the transformation of the NHTG Application form and introduction of a new Post Audit Review Process.

Revised NHTG Application form

The following significant modifications have been made to the Application for Northern Health Travel Grant:

- Instruction Sheet
  - Includes separate sections for eligibility criteria, additional information and instructions for patients or providers to verify that a Specialist Provider is certified by The Royal College of Physicians and Surgeons of Canada;
  - Revised checklist to ensure applicable sections of the form have been completed and signed by the appropriate individual;
  - Addition of a Substitute Decision Maker (SDM), with examples of SDM individuals, who can complete and sign the form on behalf of a patient who is under 16 years of age or a patient who is 16 years of age or older who is incapable of consenting on his/her own behalf.

NOTE:

Please do not remove the instruction sheet or checklist from the NHTG Application as it contains important information for the applicant regarding the completion of the form. Incomplete applications will be returned to the applicant which will delay the assessment of the application and grant payment, if the applicant is eligible.
Revised NHTG Application form (cont’d)

- Application form has been changed from one to two pages:
  - Page One
    - Section 1 – Patient
    - Section 2 – Northern Referring Provider
    - Section 3 – Specialist / Health Facility Service Provider
  - Page Two (on reverse of application form)
    - Section 4 – Third Party (Society/Agency) Advance Funding
    - Section 5 – Companion
- Removal of information in some sections that is no longer required (e.g. Northern Referring Provider section: Reason for Referral)
- Pertinent information has been added to certain sections (e.g. Specialist / Health Facility Service Provider section: Is this medical service for an OHIP insured service? Yes/No)

Post Audit Review Process

With the implementation of the redesigned processing system, a new Post Audit Review process has been introduced for the NHTG Program.
